

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 2 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 2 minutes to read it.

Technology has certainly changed the way we live. It has improved many spheres of our life. People can now do many tasks easily with the help of modern technology. Education has also become better thanks to it. Students can now find any information they need very quickly and without problems. The Internet is the place which knows no limits. You can find anything there. Moreover, technology motivates students and creates a greater interest in learning. Students begin to study better. Finally, computers help teachers to present the new material better. Students can watch videos and slides. There are special programmes now. They help students to practice the material as much as they need at their own pace. There are many ways we can use technology in education.

You will have to start speaking in 2 minutes and will speak for not more than 2 minutes (12–15 sentences). In your talk remember to speak about:

- where and when the photo was taken
- what/who is in the photo
- what is happening
- why you keep the photo in your album
- why you decided to show the picture to your friend

You have to talk continuously, starting with:

“I’ve chosen photo number ... ”
