

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 2 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 2 minutes to read it.

Africa is a very beautiful continent. Still, it has many problems. One of the biggest problems in African countries is lack of water. It is bad in many ways. Firstly, safe drinking water is the key to good health of the local people. Secondly, crops fail to grow if there is not enough water for agriculture. Water shortage in Africa is so sharp because the climate in Africa is mostly hot and dry. There are not enough rains there. Moreover, more and more tourists come to Africa every year. They want to see natural and historical attractions of Africa. They stay in hotels which need a lot of water not only for showers and cooking but also for gardening and golf courses. The mankind is trying to solve the water problems in Africa. Let us hope that in the future we will manage to do it for the people there.
