

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 2 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 2 minutes to read it.

Lego is one of the most popular toys all over the world. Kids love building things using Lego blocks. In March 2018 the Lego announced that it had made the toy even better. The thing is some Lego sets have botanical elements. They imitate pot plants, trees and shrubs. Now these parts of any set will be really made of plants. It means they will make these parts from some sustainable material. The new eco-friendly plastic is softer and more flexible than the usual plastic. People will not see any difference in the quality or appearance of the toy. However, this small change may have a big impact on our planet. Lego has said it is committed to making all of its bricks and packaging from such materials by 2030. The company also tries to collect the raw materials in an eco-friendly way. It's always good to see examples like that.

You will have to start speaking in 2 minutes and will speak for not more than 2 minutes (12–15 sentences). In your talk remember to speak about:

- where and when the photo was taken
- what/who is in the photo
- what is happening
- why you keep the photo in your album
- why you decided to show the picture to your friend

You have to talk continuously, starting with:

“I’ve chosen photo number... ”
