The central feature of the Kuskovo estate, the Palace with its splendid forecourt and magnificent formal garden, is the best preserved part of the estate. The irregular arrangement of the buildings gives the forecourt a picturesque quality.

Bad for your dog ... and could be bad for you too.

In an exciting game, Barca was up 5-1 with just moments left – so close, but they'd need one more for the miracle win. Then, in stoppage time (after regulation time is done and where time lost during the game is made up) ... with seconds left, Barca passed it to substitute player, Sergi Roberto, who placed a perfectly timed foot on the ball ... and scored!

D) Рубрика

In the presidential elections in France a win for Marine Le Pen would have resulted in a very different vision. Ms. Le Pen had wanted a Frexit, France's exit from the European Union (similar to Brexit, Britain's recent exit from European Union membership). During the campaign, her views were often compared to President Trump's.

The rain overwhelmed rivers and streams causing "flash floods" as the banks couldn't absorb or contain the water. The force of the rushing waters uprooted homes and cars as it went by, snapped roads and bridges in half, and breached dams meant to contain the water. In the modern world it is hard to imagine a person who cannot use a computer. Using a computer involves typing. This skill is not so easy to learn. You must learn how to type using both hands. The more fingers you can use for typing, the faster you type. Moreover, you must remember the position of each key on the keyboard and so on. It's good if you can type without looking at the keyboard. However, new research shows that this skill is truly necessary only for professional typists. Even they type much slower when they have to write an email or any other kind of message. Their speed of typing drops from 80 words a minute to 45 words a minute. Besides, now people often copy and paste ready texts and then just edit them. So typing fast may be a skill which will be unimportant in the future.
