Kuskovo was built between 1740 and 1780. The bulk of the construction was carried out in the 1750s. The eighteenth-century engravings and drawings give us an idea of the special layout of the estate. The axis more than three kilometers long serves to link up three component parts – the ground beyond the lake, the formal park, and the landscape park.

B) Рубрика

Last year a staggering 65 million people had to leave their homes. 23 million of them had to leave their country (are refugees). Half of those – over 11 million – are children. It's the largest amount of people we know of that have had to leave their situation according to the United Nations Refugee Agency. And the children in particular haven't done anything to be in the situation they are in.

The Golden State Warriors are headed to the NBA Championships after an epic comeback in the best of 7 series against the Oklahoma City Thunder. The Warriors were down three games to one. They had to win three games in a row under tremendous pressure. But the Golden State Warriors are proving to be no ordinary team.

D) Рубрика

The cold never bothered Harbin, China ... in fact they thrive on it, hosting the world's largest snow and ice festival every year. It's under way right now. Around 7,000 sculptors worked tirelessly to build ... basically a city, complete with buildings, sculptures, and slides – all made of ice and snow! There are replicas of the Great Wall of China as well as world-record sized sculptures.

### Changing Greenland

Greenland is the largest island in the world but has a small population of 56,000. Many of these 'Greenlanders' live  to the coastline because a large part of the country is covered with ice and glaciers. Since the 1960s, the country has had economic  and social problems. Its traditional industry – and its biggest – is fishing, but the country  imports much more than it exports. Now, , life is about to change dramatically for many Greenlanders – and all because of the weather.

Most scientists agree that the world's climate is getting warmer and you can already see the  in Greenland. The huge sheet of ice which covers Greenland is shrinking by about 75 cubic kilometres each year.

One industry that is benefiting from the melting ice is the oil industry. They plan to drill for oil in the  few years.

**Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 2 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 2 minutes to read it.**

You cannot imagine school life today without competition. It is really necessary for children. There are many reasons for that. Firstly, competition makes children see the strong points of their classmates. It helps them develop friendships. Secondly, while taking part in competitive games, children develop confidence. They also cope with their fears. It is also important that competition in school motivates students. It becomes the biggest teacher for them. It makes them understand that it is not what you won or lost. What matters above all is that you did your best. The last but not the least, competition pushes children to compete with themselves. It makes them better positioned for the next time they find themselves in a competition, and this is a great lesson to learn.
