Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 2 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 2 minutes to read it.

You cannot imagine school life today without competition. It is really necessary for children. There are many reasons for that. Firstly, competition makes children see the strong points of their classmates. It helps them develop friendships. Secondly, while taking part in competitive games, children develop confidence. They also cope with their fears. It is also important that competition in school motivates students. It becomes the biggest teacher for them. It makes them understand that it is not what you won or lost. What matters above all is that you did your best. The last but not the least, competition pushes children to compete with themselves. It makes them better positioned for the next time they find themselves in a competition, and this is a great lesson to learn.
