

**Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 2 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 2 minutes to read it.**

Education is important because it helps us with many things. First of all, it teaches us to think and ask questions. People are curious by nature, so education is the best way to answer the many questions which children have. Education gives us a better understanding of the world around us and how things work. The world needs education because it is the basis of a healthy society. Education helps people to think rationally and avoid illusions in life. The recent studies have also found out that educated people tend to live longer. It is so because they know that they need to play sports and lead a healthy lifestyle. They have better skills and deal with problems more effectively. If you have a good education, you will also find a better job and will do what you love in life.
